PROFESSIONAL SUMMARY

Highly motivated Computer Science graduate with over two years of experience in ICT technical support, network maintenance, and system administration. Skilled in troubleshooting hardware, software, and network systems, maintaining applications, and supporting secure data management. Experienced in supporting users, monitoring ICT infrastructure, and implementing system improvements to ensure reliable and efficient operations. Strong interest in supporting healthcare ICT systems, data protection, and operational technology reliability.

CORE COMPETENCIES

- ICT Technical Support & Troubleshooting
- Network Installation & Maintenance
- Hardware & Software System Maintenance
- Electronic System & Application Support
- Data Security & Backup Management
- User Training & ICT Support Documentation
- Server Installation & Network Configuration
- Microsoft Office & Business Applications
- IT Helpdesk & Ticketing Systems

PROFESSIONAL EXPERIENCE

ASSISTANT ICT OFFICER - National Registration Bureau (NRB), Malawi 2026 – Present

- Provide ICT support to staff and operational users to ensure the reliable use of computer systems, software applications and ICT equipment.
- Conduct data cleaning, validation and analysis to improve the accuracy, consistency and integrity of citizen registration records.
- Support the management and maintenance of ICT equipment and inventory to ensure availability and operational continuity.
- Monitor equipment maintenance requirements and assist in coordinating technical interventions when ICT equipment requires repair or servicing.
- Provide user training on software applications, computer systems and hardware troubleshooting to improve staff ICT proficiency.

- Assist users in resolving technical problems and provide practical guidance on the appropriate use of ICT systems.
- Support the identification and resolution of ICT-related problems affecting operational activities.
- Maintain a strong focus on data accuracy, system reliability and responsible handling of organizational information.

TECHNICAL SUPPORT - Shake Solutions, Lilongwe, Malawi

2024 – 2025

- Provided first-line technical support to clients through email, telephone and remote support channels, diagnosing and resolving hardware, software and connectivity problems.
- Troubleshooting computers, applications, printers and network-related issues to minimize disruption to users and business operations.
- Installed, configured and maintained software applications, including Microsoft Office and antivirus solutions.
- Assisted users with the installation, configuration and effective use of computer systems and applications.
- Managed software updates and conducted system audits to identify issues affecting performance, reliability and usability.
- Used support-ticket systems to record incidents, monitor requests and track technical issues through to resolution.
- Maintained and supported servers and network equipment, including routers and switches.
- Assisted with network infrastructure maintenance and server installation and upgrades.
- Conducted website audits to identify and rectify performance and user-interface issues.
- Explained technical problems and solutions to non-technical users using simplified demonstrations and clear communication.
- Assisted clients in setting up new computer systems, applications and software environments.

- Worked collaboratively with users and technical teams to identify requirements and implement appropriate technical solutions.

ICT NETWORK TECHNICIAN – INTERN

Godka Technologies Ltd, Blantyre, Malawi

January 2022 – September 2022

- Installed and terminated Ethernet cables to establish reliable network connectivity.
- Performed RJ45 crimping and basic network infrastructure installation.
- Tested network hardware and connectivity to verify proper functionality.
- Diagnosed network connectivity problems and assisted in resolving hardware-related faults.
- Supported basic LAN installation and network maintenance activities.
- Assisted with the testing and verification of network equipment before deployment.
- Applied practical troubleshooting techniques to identify and resolve connectivity problems.

EDUCATION

Bachelor of science in Computer Science Degree certificate.
DMI-St. John The Baptist University, Mangochi, Malawi.
2020 - 2024.

MSCE certificate.
Mtendere Secondary School, Dedza, Malawi.
2015 - 2019.
